PROFESSIONAL SUMMARY

I am a passionate and dedicated Computer Science graduate from Laikipia University with a strong foundation in **Artificial Intelligence, Software Development, Graphic Design, and System Analysis**. With a keen eye for detail and a problem-solving mindset, I excel in developing efficient and scalable software solutions. I am eager to apply my technical expertise in a dynamic team environment while continuously expanding my knowledge in emerging technologies. A quick learner with excellent analytical skills, I am seeking opportunities to contribute to innovative projects in the field of computer science.

WORK EXPERIENCE

Network Support & IT Systems Officer | Konvergent Network Limited

Nairobi, Kenya

June 2025 – June 2026

- Monitored and maintained LAN/WAN network infrastructure, ensuring reliable connectivity and minimizing operational downtime.
- Configured and supported routers, switches, wireless access points, and firewall solutions to maintain secure and efficient network performance.
- Assisted in the deployment, administration, and maintenance of Windows Server environments, Active Directory, and user access management.
- Supported the development, testing, and maintenance of internal software applications by identifying bugs, validating system functionality, and documenting technical requirements.
- Developed and modified basic web-based solutions using HTML, CSS, JavaScript, and SQL to enhance internal business processes and reporting capabilities.
- Performed database management tasks including data validation, query execution, backup monitoring, and maintaining data integrity across organizational systems.
- Collaborated with software and technical teams to troubleshoot application issues, implement feature enhancements, and improve overall system performance.
- Automated routine administrative and reporting tasks through scripting and system configuration, improving operational efficiency and reducing manual workload.
- Conducted system monitoring, performance analysis, and preventive maintenance to ensure high availability of business-critical services.
- Supported cybersecurity initiatives through security patch management, endpoint protection, vulnerability assessments, and access control reviews.
- Created and maintained technical documentation, system configurations, network diagrams, and user guides to support knowledge sharing and operational continuity.

IT Support and System Assistant | Farmer's Choice Limited

Nairobi, Kenya

May 2025 - Nov 2025

- Accomplished a 15% reduction in average ticket resolution time by implementing a streamlined ticket escalation process and developing a centralized knowledge base, as measured by helpdesk system reports.
- Managed and resolved over 500 end-user technical issues monthly, maintaining a 95% user satisfaction rating through rapid diagnosis and effective hardware, software, and network troubleshooting.
- Enhanced system stability by consistently performing routine maintenance, patch management, and antivirus updates across 200+ workstations, resulting in a 20% decrease in critical system failures.
- Developed comprehensive user training materials and conducted 10+ training sessions, improving employee proficiency with core business applications and reducing helpdesk calls by 10% over 3 months.
- Successfully migrated 50 user accounts to a new Active Directory domain structure, ensuring zero data loss and maintaining 100% system uptime.
- Streamlined data entry processes within Microsoft Dynamics 365, reducing data input errors by 15% and increasing user efficiency by 10%.

EDUCATION

Laikipia University

Bachelor of Science ,Computer Science

Nyahururu, Laikipia County

Sep 2021 - Apr 2025

Lenana School

Secondary Education

Nairobi, Kenya

Jan 2017 - Apr 2021

Muthuri Primary School

Primary Education

Thika, Kenya

Jan 2009 - Dec 2016

SKILLS AND ACHIEVEMENTS

- Graphic Design
- Python
- JavaScript
- Django
- React.js & Node.js
- HTML & CSS
- MySQL & MongoDB
- Git & GitHub
- Software Development Lifecycle
- Data Structures & System Analysis
- Technical Documentation & Cloud Computing
- Hardware & Network troubleshooting
